APL Custom Bespoke Panels & Profiles

## APL Custom Bespoke Panels & Profiles

Our Custom profiles allow designers to choose their required colour, shape, finish and dimensions to deliver a result not achievable with standard roll-formed product

- The size and shape of the profiles can be changed
  - The pitch of the profiles can be changed
  - The depth of the profiles can be changed

Designs can even match brick modules between window openings to provide a uniform and consistent panel fit

Custom profiles are available in either aluminium or steel. Finishes include pre-painted coatings, powder coating, anodised aluminium, and Corten steel. Depending upon the finish, colour choice is almost infinite!

For a truly bespoke facade choose the APL 'Bespoke' service.

- Variety of installation methods – secret fix, surface fix, portrait, landscape
- Lengths upto 6m
- Available in aluminium and steel
- Available in mill finish aluminium, stucco embossed aluminium, PPC, Armacoil™ (2-layer PVDF coating system), ArmacoilPLUS™ (3-layer PVDF coating system), Anodised, PUF, PRISMA and LG finishes
- Can be installed on to all structures – including the extremely popular StrongBak™ system
- Compatible with a variety of carrier systems – including the highly energy efficient and economical Tritherm™ system

#### Typical Bespoke Vertical Assembly
