

APL Case Study

Project: **Greenlaw Business Centre**

Date: **2018**

Background:

- APL were involved from an early stage with the architects, providing design and costing advice throughout the tendering process
- APL's strong supplier relationships ensured that long-lead items were all delivered to the project timeframes
- APL's design expertise enabled a bespoke profile to be created to meet the architects vision and inhouse fabrication capability upto 6m in length resulted in single-length profiles and flashings

Systems:

- 1,000m² of Newton-range custom bespoke in aluminium with an anodised-bronze coating
- 850m² of AP6ZS factory-produced standing-seam built-up system
- APL Tritherm™ GALV support system onto SFS
- LB4 live louvre system
- All flashings, fixings and accessories

Building Location:

- Glasgow
