

APL Case Study

Project: **Bidfoods Distribution Centre, Glasgow**

Date: **2022**

Background:

- APL were initially engaged directly by the main contractor due to previous supply-chain issues experienced by the client
- Due to APL's strong supply-chain relationship, all material was able to be procured and delivered on time to meet the projects programme
- APL provided all thermal and structural calculations

Systems:

- 10,000m² of APL built-up wall system with steel half-round AP50HR in RAL 9006 and RAL 9007 as the external profile
- APL Tritherm™ GALV sub-framing
- All fixings and accessories

Building Location:

- Glasgow
