

## APL Case Study

Project: **Hellaby Business Centre**

Date: **2021**

### Background:

- APL was specified by the architect, having successfully worked with APL before
- APL's technical expertise ensured a successful project due to the challenges posed by being a refurbishment project

### Systems:

- 300m<sup>2</sup> of APL Snaploc™ 40/450 traditional standing seam built-up system in pre-coated aluminium
- 400m<sup>2</sup> of APL Slimwall™ flat-panel system in aluminium with a PPC coating
- APL Tritherm™ GALV subframe to support panel system onto block-work
- All fixings and accessories

### Building Location:

- Sheffield
