

APL Case Study

Project: **Middlebeck School**

Date: **2021**

Background:

- APL was specified by the architect, being engaged early in the design process
- The architect's vision required numerous bespoke samples to be made, with an ultra-clean secret-fix version ultimately being chosen
- APL's strong production processes ensured all materials were delivered to site on time

Systems:

- 950m² of APL custom bespoke secret-fix castellated profile in aluminium with a PPC coating
- APL Tritherm™ GALV subframe to support panel system onto SFS
- All flashings, fixings and accessories

Building Location:

- Newark
